

MD. IMRAN MIA

Full Stack Developer

I am a dedicated Full Stack Developer with strong skills in building modern, user-centric web applications. I can create robust front-end and back-end solutions, integrate APIs, and work with databases efficiently. I have completed several real-world projects involving responsive design, clean architecture, and problem-solving across the development cycle. I will continue improving my technical abilities and contribute to impactful, high-quality software solutions while collaborating effectively with teams.

PROJECTS

● Hotel Booking Management System (Oct-2025)

Technologies : Flutter, Dart, Spring Boot, MySQL

- Build a responsive Flutter interface enabling users to search hotel and check real-time room availability.
- Implement seamless booking requests integrated with hotel-side APIs.
- Integrated secure payment processing to confirm customer reservation.
- Delivered real-time booking updates and notifications using synchronized backend data.
- Optimized app performance and ensured a smooth user experience across devices.

Github : github.com/smimran64/SpringBootProject

● Hotel Booking Management System (Sept-2025)

Technologies : Java, Spring Boot, MySQL

- Facilitate real-time room search and availability for customers.
- Send customer booking requests directly to the hotel.
- Process and verify payments securely before confirming bookings to both parties.
- Maintain customer profiles and hotel details to ensure smooth communication and service handling.
- Generate booking confirmations, send notifications, and provide hotels with updated reservation data.

Github : github.com/smimran64/SpringBootProject

● Hotel Booking Management System (July-2025)

Technologies : Angular, Json server, Web design

- Build a responsive Angular UI for hotel search and room availability display.
- Implemented booking operations with smooth form handling and validation.
- Stored and managed reservation data using JSON Server as a lightweight backend.
- Create RESTful endpoints to handle customer and hotel information efficiency.
- Enabled instant booking updates with fast JSON-based data handling.

TECHNICAL TRAINING

IsDB-BISEW IT SCHOLARSHIP

Web and Mobile App Development using Spring Boot, Android & Flutter

Duration : Dec 2024 - Oct 2025

SKILLS

Back-End

- Java
- Spring Boot
- Node.js
- Express.js

Mobile Application

- Flutter
- Dart
- Android

Front-End

- Angular
- Type Script
- PHP
- Web Design

Database

- MySQL
- Firebase
- Sqlite
- H2

LANGUAGE

- Bangla : Native
- English : Professional
- Hindi : Intermediate

EDUCATIONAL QUALIFICATIONS

- **Master's Of Business Administration**

Accounting
Passing Year : 2024
Result : 3.50

Dhaka College

- **Bachelor Of Business Administration**

Accounting
Passing Year : 2023
Result : 3.28

Dhaka College
